

## Clark Forklift Parts

Clark Forklift Parts - At this time, there are over 350,000 Clark forklifts performing globally, and upwards of 250,000 in commission in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 individual components fabricated for 20 unique brands of lift trucks and automated equipment. Your regional Clark Dealer is your complete source for availability of all your parts needs provided by Clark Totalift.

Clark's phenomenal Parts Distribution Centers are conveniently located in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to provide the highest level of value and service to our users, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Worldwide, Clark has one of the most amazing dealer support networks. With over 550 locations globally, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the material handling market.

Clark proudly remains an innovative leader of the material handling industry, revolutionizing protection features such as the operator restraint system. This exceptional commitment to safety is currently a customary feature on every lift truck.

Clark has a unyielding mission to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its manufacturing facilities. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental limitations, thus placing them in a dominant market position.

Clark has selected the system of "Lean Manufacturing" at all of its assembly plants because this method is particularly economical and enables minimal use of resources. Established to guarantee maximum proficiency, this system is designed to discover and acknowledge the most efficient methods for production plant management. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product efficiency while minimizing costs. The contemporary value engineering program combines innovative product growth and delivers improved consumer support and service within the industry.
