

## TCM Forklift Part

TCM Forklift Parts - In the international industry of material handling, lift trucks play an important role for transporting industrial goods. Originally innovated as industrial vehicles during the 1930s in the U.S., lift trucks gained popularity following World War II in the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machinery spread globally.

Originally started as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. prior to becoming recognized as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's first forklift. Throughout the years, TCM forklifts have become an international leader in lift truck manufacturing and have built a solid reputation in the business. TCM started constructing lift truck manufacturing locations outside of Japan during the 1980s and is currently engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly manufactures many models of industrial forklifts with over 50 years of accumulated expertise and technology, making their products recognized and used all over the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and intends to become a world-class leading company.
