

Spreader Bar for Forklifts

Forklift Spreader Bars - Proudly operating since the year 1974, ELME Spreader AB is the largest independent spreader company all over the world. They have been a dedicated manufacturer of spreaders meant for different applications such as the swop bodies, trailers and handling of containers.

Engineering is done in house by means of using all the newest FEM tools and CAD systems. The ELME company now has more than one hundred twenty five staff members. Their spreaders are supplied to reach quayside, ship-to-shore cranes, stackers, straddle carriers, lift trucks and gantry all-around the world.

The product collection of ELME consist of numerous spreaders intended for different trailer and container handling operations. Some of their inventory include: Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle carriers, Ship to Shore Spreaders in addition to a wide range of additional parts.

Manufacturing and production of ELME products are established in highly automated purpose designed factory. In the year 2008, they created 1150 spreaders by making use of quality parts to be able to guarantee reliability and top standards. Major characteristics of ELME include design simplicity, market feedback and ground-breaking modular spreader concept.
