

## JLG Forklift Parts

JLG Forklift Parts - In the late 1960's John L. Grove, with his wife Cora started out on a cross country trip in their RV. Freshly retired, after spending several years working with his brother to build their crane company into an market leader, John had no idea that fatefull trip would allow JLG Industries, Inc to emerge. The world leader of mobile aerial work platforms and precision materials handling equipment was the end consequence of a road expedition.

All through their journey, John reacquainted himself with past business acquaintances along the way. In combination with these conversations and a noteworthy event; two workers had been tragically electrocuted on scaffolding when the Groves were passing through the Hoover Dam. John uncovered a vast market for a product that could promptly and safely elevate individuals in the air to accomplish upkeep and other building services.

Upon returning from their travels, John established a partnership with two friends and obtained a metal fabricating company in McConnellsburg, Pennsylvania. In 1970, starting operations with a crew of twenty personnel, they designed and sold the first JLG aerial work platform. The company incorporates many of the simple design elements of that original lift into current versions.

Since then, JLG Forklifts have come a long way from when Mr. John L. Grove returned from his fatefull cross-country trip and since the first JLG aerial platform entered the market. As of today, the business has extended itself into quite a few international markets and continues to develop contemporary equipment to guarantee that customers are able to become safer and more resourceful within their workplace.
